ALLIGHTSYKES

Diesel Power

ALLIGHTSYKES IS THE WELL-KNOWN DRIVING FORCE BEHIND THE GROWTH ACROSS AUSTRALIA OF FG WILSON; ONE OF THE WORLD'S BEST-REGARDED GENERATOR BRANDS.

We are motivated by a single objective - to devise and deliver solutions which make mining, construction, farming and commercial projects safer and more productive while being sensitive to the environment.

ALL FG WILSON GENSETS ARE:

- durable and reliable
- sensitive to the environment
- quiet
- clean-running and efficient in their power delivery
- easy to service with up to 500 hour service intervals
- backed by the AllightSykes genuine parts, service and warranty promise

THE RANGE

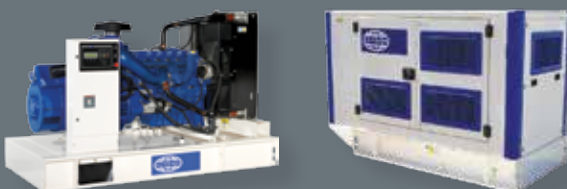

7.5 - 22kVA

220-275kVA

26-200kVA

275-330kVA

OUR STANDARD PRODUCT:

- Clean, quiet, efficient Perkins engine and reliable Leroy Somer alternator
- Heavy duty industrial silencer for much lower sound levels
- Guarding on all rotating parts - including alternator and cooling fan, for added safety
- Low oil and fuel consumption for lower lifetime running costs
- Clear and accessible instrument panels
- Robust steel constructed base frame
- IP23 Protection for alternator

DESIGNED FOR YOU:

We have a range of options that allows us to offer customized power solutions to our customers. Optional features include (but are not limited to):

- Bunded base tanks
- Galvanized skids

- Water jacket heaters, Anti-condensation heaters
- PMG, AVR and 3 Phase Sensing
- GPO's

400-700kVA

XD RANGE

800-2500kVA

Product Support Promise

Selling you a power generation solution isn't an AllightSykes goal. It's our starting point.

We understand that you need to be able to rely on fast, fuss-free genuine parts and service and warranty back-up long after your generator has started doing its job.

That's why our genuine parts and Product Support teams are on hand to make sure you can access qualified, professional and highly skilled technicians when you need them most.

Need to know more?

As you work your way through the brochure, you'll realise why our power generation solutions are generally believed to be as good as it gets. But if brochures aren't your thing, just mouse over to www.allightsykes.com. You'll be able to get hold of relevant general information, spec sheets, and thought-leadership articles, and compliance and legislation updates.

ALLIGHT

The science of mobile lighting has sat at the heart of the Allight brand for more than 20 years. From worldwide headquarters in Perth, Western Australia, design, engineering, procurement and assembly teams produce almost 3,000 lighting towers a year.

Powered by either a CAT or Perkins engine, each tower features the world's most reliable components as well as a unique mast design and light assembly which makes sure the maximum output reaches your work platform for optimum productivity and safety.

Our flagship water management brand, Sykes has been a major force in the world's auto-prime pump market for over 40 years. Much of its success reflects its cleverly designed priming systems which improve fluid handling efficiencies and greatly reduce maintenance requirements. A 'snore' facility built into its ground-breaking auto-priming pumps, for example, means they can run dry without damage for extended periods.
